Case studies

Some typical Spitch solutions implementations across different industries, countries and business sectors are showcased on our website. They are universal references for the most common use cases of many of our clients and partners. They are also useful as best practice guidance for a wider circle of our prospective customers.

The shift to omni-channel communications has given customers limitless ways to make their voices heard – whenever, wherever and however they choose. This is both a challenge and an opportunity as the customer experience becomes critically important in a company's ability to attract new customers, keep existing customers loyal and drive higher profits.

If your case is not already covered, it simply means we will develop a bespoke solution for it:

https://spitch.ch/contact/

Spitch was the first company to develop enterprise solutions in Swiss German (Schwiizerdütsch) and its many dialects. Many other languages have been added since then. Alongside high accuracy and rich functionality, Spitch offers flexible client-centric models of engagement and a bespoke approach focused on delivering visible business benefits by voice-driven services.

Spitch is an established Swiss company with global presence and a leading provider of speech solutions and services.

Why Spitch?

Our solutions are part of a complete platform of integrated voice technologies, supporting open architecture and industry standards.

Spitch's outstanding accuracy is combined with an extraordinary fast time-to-market, and comes with a full spectrum of professional services.

Solutions are designed both for cloud-based (private or public) and on-premise deployments in line with data security requirements.

Recognition by market leaders:

1. Swisscom included Spitch in its Swiss Artificial Intelligence Startup Map.
2. Opus Research featured Spitch in Voice Biometrics Intelliview 2017 as "one of the 19 leading firms".
3. Spitch was referenced as an innovator in the Accenture report on Artificial Intelligence (AI) and its potential for business.
4. Spitch has been included in the "BORN IN SWITZERLAND" Swiss Original Fintech Overview Map of companies based in Switzerland, which are focused on disruptive technology or service innovations with a clear focus on AI.
5. Forrester has recognised Spitch as a Growth Stage company in the report "New Tech: AI-Fueled Speech Analytics Solutions", highlighting the strength of Spitch's position in the market.
6. Spitch has been included in the "BORN IN SWITZERLAND" Swiss Original Fintech Overview Map of companies based in Switzerland, which are focused on disruptive technology or service innovations with a clear focus on AI.
Spitch — a uniquely complete set of technologies

1  Individual Attention & Specific Adjustments
Spitch is focused on meeting partners’ needs for bespoke customisation and super fast time-to-market. Using Spitch Lingware Suite, partners can easily create their own speech solutions independently or relying on Spitch team support.

2  Breathing New Life into your Legacy Solutions
Spitch will help refresh and transform some of the traditional solutions without the need to discard often expensive infrastructure investments.

3  Flexible pricing
Spitch offers competitive and flexible pricing, in a Capex, Opex or Hybrid approach. In line with the Spitch partnership philosophy, pricing models reflect the specific needs of partners to add value and generate mutual business benefits.

4  Partner training and 24/7 Support
Spitch provides comprehensive 24/7 support as well as dedicated training programmes and certification to partners. A full range of support services is available including remote coaching and on-site visits by specialists.

Special benefits for partners generating added value

Our network of trusted partners helps ensure seamless integration and value addition even in the most complex use cases

Trusted by clients and partners around the world
